

# About our Services

YWCA Canberra cares for around 3000 children each week through our children's services. We develop and create learning environments that reflect the children and families we work with, the community we live in and the values of our organisation.

Our program Directors work collaboratively with our community services team to identify and refer children and families that require additional support, ensuring all children and families are supported to participate fully in our community.

- ✓ Safe, supportive, respectful and inclusive environment.
- ✓ Promote children's holistic development.
- ✓ High quality, evidence-based programs.
