About our Services

YWCA Canberra cares for around 3000 children each week through our children's services. We develop and create learning environments that reflect the children and families we work with, the community we live in and the values of our organisation.

Our program Directors work collaboratively with our community services team to identify and refer children and families that require additional support. This is part of our commitment to ensuring all children and families are supported to participate fully in our community.

Our aim is to ensure high quality, evidence-based programs are provided to support children, families and educators through our inclusive service delivery. The principles and practices of programs are designed to promote children's holistic development.

We offer early childhood education and care across the Canberra region where we enable a sense of belonging in the children and families in our services through our safe, supportive, respectful and inclusive environment.
